Actomate Successfully Reaccredited under IFoA Quality Assurance Scheme

Actomate successfully achieves reaccreditation under the Institute and Faculty of Actuaries (IFoA) Quality Assurance Scheme (QAS).

Kuala Lumpur, Malaysia, 19 June 2026 – Actomate, a leading actuarial and technology solutions firm in Asia, proudly announces that it has successfully achieved reaccreditation under the Quality Assurance Scheme (QAS) of the Institute and Faculty of Actuaries (IFoA), United Kingdom.

The Quality Assurance Scheme is a prestigious accreditation programme established by the IFoA to recognise organisations that demonstrate robust quality management systems, strong governance frameworks, and a commitment to delivering high-quality actuarial services. Through a comprehensive independent assessment process, accredited organisations must demonstrate that appropriate controls, review procedures, professional standards, and risk management practices are embedded within their operations.

Actomate first achieved QAS accreditation in 2020 and has successfully maintained the high standards required for reaccreditation. This achievement reflects the company's ongoing commitment to professionalism, technical excellence, and continuous improvement in the delivery of actuarial consulting, analytics, and technology solutions.

The reaccreditation provides assurance to clients and stakeholders that Actomate operates under a rigorous framework of quality controls and governance standards. It reinforces confidence that projects are delivered with appropriate oversight, technical review, and adherence to internationally recognised professional standards.

The Institute and Faculty of Actuaries is one of the world's most respected actuarial professional bodies, representing actuaries across more than 100 countries. Its Quality Assurance Scheme is recognised internationally as a benchmark for actuarial firms that demonstrate strong governance, quality assurance, and professional excellence.

Actomate is a technology-focused actuarial firm founded in 2015. It is the first and only actuarial firm awarded the MD Malaysia Digital status (formerly known as MSC Malaysia Status) by the Malaysian Government, a mark of world-class service and achievement. In 2019, Actomate was awarded Top Actuarial Firm in Asia by Asia Captive Review. In 2020, the company first received Quality Assurance Scheme accreditation from the Institute and Faculty of Actuaries (UK). In 2023, Actomate won the SME100 Awards from the Small and Medium Enterprises Association of Malaysia (SAMENTA). Actomate is a diverse, equitable and inclusive (DEI) workplace and a signatory to the Malaysian Digital Climate Action Pledge. The company also received ISO 9001:2015 Quality Management System certification from SIRIM QAS International, further reinforcing its commitment to quality and operational excellence.
